## Fast assembly IP 65 plastic enclosures

These practical enclosures feature a rational snap-together assembly technique for faster installation of the electronics/electrical components.

- modern low cost wall mount enclosures
- snap-on lids for easier assembly
- high bottom parts guarantee maximum surface area for fitting cable glands and interfaces
- fast disassembly/servicing with opening tool or screw driver
- nylon opening tool and cover plugs for access holes included
- high protection class IP 65; sealing gasket pre-fitted in the top
- recess in the lid for a membrane keypad or label
- hidden screw shafts for easy wall mounting
- alternative external wall mounting brackets
- internal screw pillars for PCBs etc.

## Applications and Examples

- Small devices with electro-technical components for low voltage, e.g. potentiometers, time controllers, coded control units etc.
- Or applications for low voltage with electro-mechanical components e.g. relays, under voltage no-close release, fuses etc. Also, medical and home automation systems.
